<ul style="list-style-type: none"> • SOLID BAMBOO: Bamboo is stronger than wood and will last longer. Thus, we choose renewable resource bamboo that grows in natural alpine areas. The texture is strong load-bearing and stable. Each layer of the free standing shoe racks has a high load-bearing capacity. After the product is carbonized at a high temperature, it is waterproof and not easy to crack and deform. • EASY TO ASSEMBLE: We have upgraded the connection method of the shoe holder and no longer used plastic connectors to connect it, which greatly increases the stability of the shoe storage and avoids bending in the middle of the shoe rack. And the assembly process of the shoe shelf is simple and easy to understand, and everything needed will be included, so there is no need to search for tools. We will also include an installation tutorial for the small shoe rack for reference. • WIDE RANGE OF USES: Undoubtedly, this small shoe rack for entryway small space will keep your shoes in order. In addition, this shoe stand also has many other functions. It can be used as a bookshelf or flower rack in the living room or bedroom, as well as a towel rack in the bathroom, or even a small box for holding handicrafts, or anywhere you need to store things. • STACKABLE DESIGN: Whenever trying to save space or make room, we find ourselves stacking things on top of the other. This organization and storage shelf was designed with perfect tenon design without stacking tools. As you see the top shelf has a little protrusion that allows for stacking. The shoe racks are connected by embedding grooves between the upper and lower frames. You can stack them to save space in the room while gaining additional storage.
